

STANDING APART FROM THE REST

Neonatologist Dr. Jeanette Hoenig weighs in on her family's experience with Dr. Mira Albert at Brush Pediatric Dentistry.

As a physician, I work with other health care professionals every day. Only every now and then does one health care professional really stand out. Dr. Mira Albert is one of those professionals whose skill, sincerity, and integrity set her apart from the rest. She has a genuine passion for helping children and this translates into all of her interactions with the child and family. It is obvious that this is not just a job to her, but rather, her profession is part of her identity and part of her life mission to help children be as healthy as they can be.

My husband and I are both physicians and as you can imagine, we are very selective about who we choose to take care of our children. Our son Graham required a dental procedure and both my husband and I felt completely confident with Dr. Albert. We trusted not only her technical ability, but also her judgment about the appropriate care plan for our son. We know that she is extremely thoughtful about her care and that she approaches her decisions with the insight of being both a professional and a mother. Because she is a caring mother herself, she goes the extra mile and is wonderfully kind and reassuring.

Our experience at Brush Pediatric Dentistry has been completely positive! My son Graham is three years old and he is not scared when we go to see Dr. Albert. The bright and cheerful office setting and the warm and friendly staff help to comfort him. Dr. Albert approaches Graham with kindness and patience. He does his best to be cooperative, but Dr. Albert works with him gently when he does have a moment of anxiety. As a mother, I am very thankful to Dr. Albert for the way she is able to gain the trust of my child so that he can receive the care he needs.

Without hesitation, I would absolutely recommend Brush Pediatric Dentistry to other families! Dr. Albert has been wonderful working with us and Graham through both his routine dental care as well as through the more difficult time of his procedure. She uses every visit as an opportunity to educate us about pediatric dental health and following her advice, we have improved our son's health overall. We really feel good about the care Graham is receiving from Dr. Albert at Brush Pediatric Dentistry and, to a parent, that feeling is priceless!

Brush Pediatric Dentistry is located at 911 N. Elm Street, Suite 228 in Hinsdale, IL 30-304-2223. brushforkids.com
